file is answering.

1. Inasmuch as we have no prior reference which we can connect to the subject of EOWA-905, the latter dispatch makes little sense to us, particularly since we do not know the identity of REMOCKEY.

2. In view of the fact that paragraph 3 reflects a connection between subject and ZIPPER, we are definitely interested in all available information concerning this connection as well as information concerning the nature of your operational interest in REMOCKEY. Also of special interest would be your assessment of REMOCKEY's motivation with particular emphasis on the question of whether, in a final showdown, his ultimate loyalties would lie with KUBARK or with ZIPPER.

For COM: The questions in paragraph 2 are posed largely with a view to determining whether or not this case has any ☐ ☐ possibilities. *no?*
